The Monadnock Nursery

Keene
New Hampshire

To Our Customers

Shipping Season. The best time for moving most plants, trees, etc., is in the spring from April to June and again in the fall from the middle of September to the middle of November.

Shipping instructions should be given, otherwise we will use our best judgment, but assume no risk. Transportation charges are to be paid by the purchaser. If by parcel post add 10% to the price of the plants.

Guarantee. We give no guarantee, either express or implied that the stock will grow. Having no control over after treatment nor weather, our responsibility ends when stock leaves the nursery. We take special care to see that our stock is well grown, true to name and leaves the nursery in the best condition. In case of any mistake on our part, we shall, if notified immediately, be glad to rectify it.

Terms. Our terms are cash with order, or satisfactory references from unknown customers. Accounts are due the first of each month unless by special arrangement.

Six plants of the same kind, color and variety will be sold at the dozen rate, fifty at the hundred rate.

Location. We are located about two miles from Central Square, Keene, N. H., on Route No. 9, from Keene to Brattleboro, Vt.

Landscape Department. We are prepared to undertake a limited amount of landscape work, and will be pleased to consult with prospective customers.

Hardy Perennials

	Ea.	Per doz.
